FINANCIAL SECTION

CITY OF JORDAN JORDAN, MINNESOTA

FOR THE YEAR ENDED DECEMBER 31, 2013

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council City of Jordan, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Jordan, Minnesota (the City) as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. The prior year comparative information has been derived from the City's 2013 financial statements and, in our report dated May 1, 2013, we expressed unmodified opinions on the respective proprietary fund financial statements. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City as of December 31, 2013, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the General fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis starting on page 13 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section and combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated April 16, 2014 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Abdu, Eick & Meyers, LLP

Mankato, Minnesota April 16, 2014

Management's Discussion and Analysis

As management of the City of Jordan, Minnesota, (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2013.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$31,962,497 (net position). Of this amount, \$3,296,471 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$541,949 compared to an increase of \$1,516,778 in the previous year. Decreases in capital grants and contributions and increases in overall expenses from the previous year contributed to this change from the previous year.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$7,145,684, a decrease of \$58,520 in comparison with the prior year. This decrease is attributable to capital outlay associated with project costs during the year. Approximately 25.2 percent of ending fund balances, \$1,798,961, is available for spending at the City's discretion. The remainder of fund balance, \$5,346,723, is not available for new spending because it is either 1) restricted (\$3,679,054), 2) committed (\$189,732), or 3) assigned (\$1,477,937).
- At the end of the current fiscal year, unassigned fund balance for the General fund was \$1,798,961, or 64.0 percent of total General fund expenditures.
- The City's total debt increased by \$4,833,000, or 20.6 percent during the current fiscal year. The key factor in this increase was the retirement of \$1,997,000 in long-term debt during the year and new debt issues of \$6,830,000.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of combining and individual fund financial statements and schedules that further explains and supports the information in the financial statements. Figure 1 reflects how the required parts of this annual report are arranged and relate to one another. In addition to these required elements, we have included a section with combining and individual fund financial statements and schedules that provide details about nonmajor governmental funds, which are added together and presented in single columns in the basic financial statements.

Figure 1
Required Components of the
City's Annual Financial Report

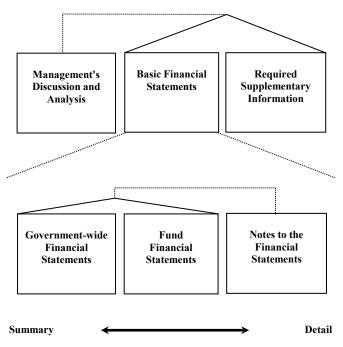

Figure 2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Figure 2
Major Features of the Government-wide and Fund Financial Statements

| | | Fund Financial Statements | | | | |
|--|---|--|--|--|--|--|
| | Government-wide Statements | Governmental Funds | Proprietary Funds | | | |
| Scope | Entire City government (except fiduciary funds) and the City's component units | The activities of the City that are not proprietary or fiduciary, such as police, fire and parks | Activities the City operates similar to private businesses, such as the water and sewer system | | | |
| Required financial statements | Statement of Net Position Statement of Activities | Balance Sheet Statement of Revenues, Expenditures, and Changes in Fund Balances | Statement of Net Position Statement of Revenues, Expenses and Changes in Net Position Statement of Cash Flows | | | |
| Accounting Basis and measurement focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial resources focus | Accrual accounting and economic resources focus | | | |
| Type of asset/liability information | All assets and liabilities, both financial and capital, and short-term and long-term | Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included | All assets and liabilities, both financial and capital, and short-term and long-term | | | |
| Type of deferred outflows/inflows of resources information | All deferred outflows/inflows of resources, regardless of when cash is received or paid. | Only deferred outflows of resources expected to be used up and deferred inflows of resources that come due during the year or soon thereafter; no capital assets included | All deferred outflows/inflows of resources, regardless of when cash is received or paid | | | |
| Type of inflow/outflow information | All revenues and expenses during year, regardless of when cash is received or paid | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter | All revenues and expenses during the year, regardless of when cash is received or paid | | | |

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets and liabilities with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, streets and highways, economic development, culture and recreation and miscellaneous. The business-type activities of the City include water, sewer and storm sewer operations.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate Economic Development Authority (EDA) for which the City is financially accountable. The EDA, although legally separate, functions for all practical purposes as a department of the City, and therefore has been included as an integral part of the primary government.

The government-wide financial statements can be found starting on page 27 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 35 individual governmental funds, 8 of which are Debt Service funds, which are reported as one fund for financial reporting purposes. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General fund, the Debt Service funds, the Firehall Expansion Project fund and the 2013 Street Improvements fund, all of which are considered to be major funds. Data from the other nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements or schedules* elsewhere in this report.

The City adopts an annual appropriated budget for its General fund. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found starting on page 32 of this report.

Proprietary funds. The City maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, and storm sewer operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for each of the enterprise funds which are considered to be major funds of the City.

The basic proprietary fund financial statements can be found starting on page 40 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found starting on page 47 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds are presented following the notes to financial statements. Combining and individual fund financial statements and schedules can be found starting on page 72 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$31,962,497 at the close of the most recent fiscal year.

By far, the largest portion of the City's net position (73.5 percent) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Jordan's Summary of Net Position

| | Go | vernmental Activit | ies | Business-type Activities | | | | |
|---|-------------------------------------|-------------------------------------|-----------------------------------|-------------------------------------|-------------------------------------|----------------------------------|------------------------|--|
| | Increase 2013 2012 (Decrease) | | | | | | Increase (Decrease) | |
| Current and other assets Capital assets | \$ 8,180,456 14,900,684 | \$ 8,410,197 12,883,311 | \$ (229,741) 2,017,373 | \$ 8,537,767 30,016,510 | \$ 3,871,844 30,877,484 | \$ 4,665,923 (860,974) | | |
| Total assets | 23,081,140 | 21,293,508 | 1,787,632 | 38,554,277 | 34,749,328 | 3,804,949 | | |
| Long-term liabilities outstanding Other liabilities Total liabilities | 9,497,673 521,584 10,019,257 | 8,395,073 450,032 8,845,105 | 1,102,600 71,552 1,174,152 | 19,307,842 345,821 19,653,663 | 15,464,323 312,860 15,777,183 | 3,843,519 32,961 3,876,480 | | |
| Net position Net investment in capital assets Restricted Unrestricted | 6,630,245 3,135,167 3,296,471 | 5,542,580 2,977,838 3,927,985 | 1,087,665 157,329 (631,514) | 16,842,153 2,058,461 | 16,584,003 2,388,142 | 258,150 (329,681) | | |
| Total net position | \$ 13,061,883 | \$ 12,448,403 | \$ 613,480 | \$ 18,900,614 | \$ 18,972,145 | \$ (71,531) | | |

An additional portion of the City's net position (16.2 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* (10.3 percent) may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position for the City as a whole

The City's total net position increased by \$541,949 compared to an increase of \$1,516,778 in the previous year. Decreases in capital grants and contributions and increases in overall expenses from the previous year contributed to this change from the previous year.

Governmental activities. Governmental activities increased the City's net position by \$613,480. Key elements of this increase are as follows:

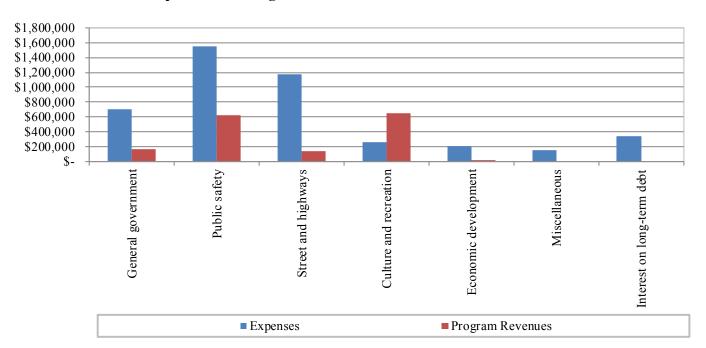

City of Jordan's Changes in Net Position

| | Go | overnmental Activi | ties | Business-type Activities | | | | |
|------------------------------------|---------------|--------------------|------------|--------------------------|---------------|-------------|--|--|
| | | | Increase | | | Increase | | |

| Net position - December 31 | \$ 13,061,883 | \$ 12,448,403 | \$ 613,480 | \$ 18,900,614 | \$ 18,972,145 | \$ (71,531) | | |

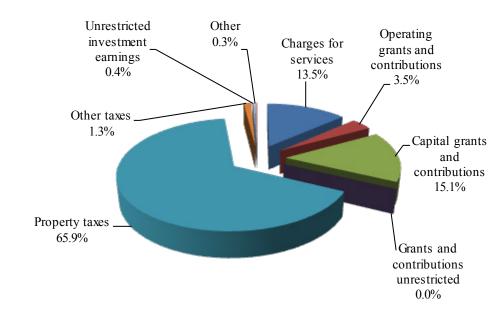

Total property tax levies did not change during 2013. Levies for debt service decreased by \$154,713 while general levies were increased by \$154,713.

The following graphs depict various governmental activities and show the revenues and expenses directly related to those activities.

Expenses and Program Revenues - Governmental Activities

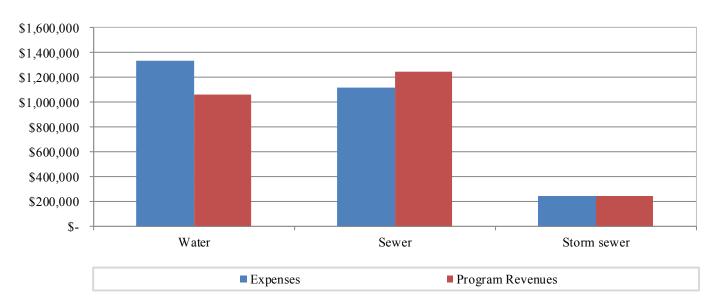

Revenues by Source - Governmental Activities

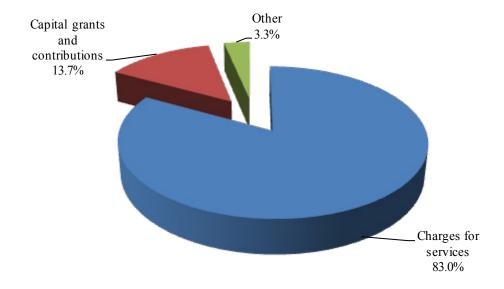

Business-type activities. Business-type activities decreased the City's net position by \$71,531. Key elements of this decrease are as follows:

- Charges for services for business-type activities increased by \$89,596 or 4.2 percent, while operating expenses decreased by \$7,751 or 0.4 percent from the prior year.
- Connection fees and capital charges decreased from \$406,767 in 2012 to \$361,061 in 2013.
- Interest, fiscal fees and bond issuance costs totaled \$670,862 in 2013, an increase of \$103,569 over the prior year.

Expenses and Program Revenues - Business-type Activities

Revenues by Source - Business-type Activities

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$7,145,684, an increase of \$58,520 in comparison with the prior year. The main reason for the increase was due to issuance of \$2,085,000 of refunding bonds less payments to retire bonds via the 2011 refunding issue. Approximately 25.2 percent of ending fund balances, \$1,798,961, is available for spending at the City's discretion. The remainder of fund balance, \$5,346,723, is not available for new spending because it is either 1) restricted (\$3,679,054), 2) committed (\$189,732), or 3) assigned (\$1,477,937).

The *General fund* is the chief operating fund of the City. At the end of the current year, the unassigned fund balance of the General fund was \$1,798,961. As a measure of the General fund's liquidity, it may be useful to compare fund balance to total fund expenditures. Unassigned fund balance represents 64.0 percent of fund expenditures.

The fund balance of the City's General fund increased by \$85,934 during the current fiscal year. This increase is mainly attributable to an increase in property taxes collected during the year.

The *Debt Service fund* has a total fund balance of \$3,021,218, almost all of which is restricted for the payment of debt service. The net increase in fund balance during the current year in the Debt Service fund was \$172,457. The majority of this increase is due to net transfers into the fund of \$83,768.

The *Fire Hall Expansion Project fund* began in 2007 with expenditures in the current year totaling \$2,728. This project is being funded with a \$1,805,000 bond issue. The fund balance at year end totaled \$0.

The 2013 Street Improvements fund was a new fund in 2013. The fund issued debt of \$1,388,142 during the year and accumulated project costs of \$1,206,706. The fund balance at year end totaled \$167,460.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the enterprise funds at the end of the year amounted to \$0. The total decrease in net position for the funds was \$71,531. Other factors concerning the finances of this fund have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The City's General fund budget was not amended during the year. The budget was balanced for 2013. Revenues fell below expectations by \$10,687 and expenditures were under budget by \$40,276. Net transfers were \$56,345 under budget resulting in an actual increase in fund balance of \$85,934 in 2013.

Capital Asset and Debt Administration

Capital assets. The City's investment in capital assets for its governmental and business type activities as of December 31, 2013, amounts to \$44,917,194 (net of accumulated depreciation). This investment in capital assets includes land, structures, improvements, machinery and equipment, park facilities, roads, highways and bridges. The total increase in the City's investment in capital assets for the current fiscal year was 2.6 percent (a 15.7 percent increase for governmental activities and a 2.8 percent decrease for business-type activities).

Major capital asset events during the fiscal year included the following:

- 2013 street improvements began during the year accumulation project costs of \$1,204,730.
- The Rice Street bridge project was completed during the year totaling \$1,292,217.
- The Trail project furthered towards completion totaling \$173,399.
- Purchase of a fire truck and related equipment for \$544,849.
- Holzer Park improvements including bathroom renovations totaled \$118,004.

Additional information on the City's capital assets can be found in Note 3B starting on page 58 of this report.

Long-term debt. At the end of the current fiscal year, the City had total bonded debt outstanding of \$28,328,000. Of this amount, \$4,410,000 is general obligation debt, \$7,365,000 is special assessment debt and \$16,553,000 is general obligation revenue debt. While all of the City's bonds have revenue streams, they are all backed by the full faith and credit of the City.

City of Jordan's Outstanding Debt

| | Go | vernmental Activi | ties | Bu | siness-type Activi | ities |
|--|---------------------------|---------------------------|---------------------------|---------------|--------------------|------------------------|
| | 2013 | 2012 | Increase (Decrease) | 2013 | 2012 | Increase (Decrease) |
| General obligation bonds G.O. improvement bonds General obligation | \$ 4,410,000 4,834,605 | \$ 2,610,000 5,541,379 | \$ 1,800,000 (706,774) | \$ 2,530,395 | \$ 2,703,621 | \$ (173,226) |
| revenue bonds | | | | 16,553,000 | 12,640,000 | 3,913,000 |
| Total | \$ 9,244,605 | \$ 8,151,379 | \$ 1,093,226 | \$ 19,083,395 | \$ 15,343,621 | \$ 3,739,774 |

The City's total debt increased by \$4,833,000, or 20.6 percent during the current fiscal year. The key factor in this increase was the retirement of \$1,997,000 in long-term debt during the year and new debt issues of \$6,830,000.

Minnesota statutes limit the amount of net general obligation debt a City may issue to 3 percent of the market value of taxable property within the City. Net debt is debt payable solely from ad valorem taxes. The current debt limitation for the City is \$9,567,301 (net of debt service restrictions), which is significantly in excess of the City's outstanding general obligation debt of \$4,410,000.

The City's bond rating was A1 as of the end of the year.

Additional information on the City's long-term debt can be found in Note 3D starting on page 61 of this report.

Economic Factors and Next Year's Budgets and Rates

- The December 2013 unemployment rate for Scott County was 4.2 percent, which is a decrease from a rate of 5.1 percent a year ago. This compares favorably to the State's average unemployment rate of 4.7 percent and the national average rate of 6.5 percent.
- Property valuations within the City remain strong and growing.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the City's budget for the 2014 fiscal year.

Property tax levy increased by 2.2% from 2013 to 2014. The debt levy was increased by \$78,831 and taxes for operations were decreased by \$10,871.

The utility fund rates have been studied by staff and City Council every year for the past eight years as part of the annual budget process. The focus of our utility rate study has been to track the fund balances with current utility rates and actual collections. The need for our rate studies was the economy the past 7-8 years and the great slowdown in new housing starts which would pay a large amount of capital and area charges. As part of the 2013 study, the City increased the water, sewer and storm water rates all by 2 percent. After years of working on progressive rate increases at the end of 2013, our study of the Sewer and Storm Water funds showed rates were sufficient to support operations, pay debt and save for future capital projects. The Water Utility fund historically has had a much larger cash balance so increases to its rates by design have been slower to produce cash balance increases. The Water fund still was projected to increase rates by 1 percent for 2014. Also, the City Council at the end of 2013 approved staff going out for RFP's for an outside utility rate study being done as there are some large capital projects in the near future.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, City of Jordan, 210 East First Street, Jordan, Minnesota 55352-1598.

CITY OF JORDAN, MINNESOTA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES GOVERNMENTAL FUNDS

FOR THE YEAR ENDED DECEMBER 31, 2013

| Net change in fund balances - governmental funds | \$ (58,520) |
|---|----------------|
| Amounts reported for governmental activities in the statement of activities are different because | |
| Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over the estimated useful lives and reported | |
| as depreciation expense. | |
| Capital outlay | 2,673,267 |
| Depreciation expense | (963,331) |
| Capital assets contributed by County | 307,437 |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report | |
| the effect of issuance costs, premiums, discounts and similar items when debt is first issued, | |
| whereas these amounts are deferred and amortized in the statement of activities. | |
| Principal repayments | 776,774 |
| Debt issued | (1,870,000) |
| Premium on bonds issued, net of amortization | (3,942) |
| Interest on long-term debt in the statement of activities differs from the amount reported in the | |
| governmental fund because interest is recognized as an expenditure in the funds when it is due, | |
| and thus requires the use of current financial resources. In the statement of activities, however, | |
| interest expense is recognized as the interest accrues, regardless of when it is due. | (36,898) |
| Certain revenues are recognized as soon as they are earned. Under the modified accrual | |
| basis of accounting certain revenues cannot be recognized until they are available | |
| to liquidate liabilities of the current period. | |
| Property taxes | (37,308) |
| Special assessments | (161,067) |
| Some expenses reported in the statement of activities do not require the use of current | |
| financial resources and therefore are not reported as expenditures in governmental funds. | |
| Loans written off | (7,500) |
| Compensated absences | (5,432) |
| | |

The notes to the financial statements are an integral part of this statement.

Change in net position - governmental activities

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting entity

The City of Jordan, (the City) operates under "Optional Plan A" as defined in the Minnesota statutes. The City is governed by an elected Mayor and a six-member Council. The Council exercises legislative authority and determines all matters of policy. The Council appoints personnel responsible for the proper administration of all affairs relating to the City. The City has considered all potential units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the primary government to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the primary government. As required by accounting principles generally accepted in the United States of America, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations and so data from these units are combined with data of the primary government. The blended component unit has a December 31 year end.

Blended component unit

Jordan Economic Development Authority. The Jordan Economic Development Authority, (the EDA) was created pursuant to Minnesota statutes 469.090 through 469.108 to carry out economic and industrial development and redevelopment within the City in accordance with policies established by the City Council. The seven member Board consists of two Council members and five other Council approved members, and the EDA director. The EDA may not exercise any of the powers enumerated by the authorizing Minnesota statutes without prior approval of the City Council. The activities are blended and reported in a separate special revenue fund. No separate financial statements are issued for the EDA. The EDA is presented as a blended component unit as the entity cannot exercise any of its powers without prior approval by the City Council.

Other agencies. The Jordan Housing and Redevelopment Authority (the HRA) is considered to be part of the primary government. The HRA was created pursuant to chapter 487 of the Minnesota Session Laws of 1947. The HRA was created by the City to carry out housing and redevelopment projects. The governing Board is appointed by the City Council, the Council reviews and approves HRA tax levies, and the City provides major community development financing for HRA activities. Debt issued for HRA activities are City general obligations. There has been no HRA activity within the City for the past few years. The HRA is now included with the Economic Development Authority fund of this report.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, grants, entitlement and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are also recorded as unearned revenue.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The City reports the following major governmental funds:

The *General fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service fund* accounts for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the City is obligated in some manner for the payment.

The Fire Hall Expansion Project fund accounts for costs related to the expansion of the fire hall.

The 2013 Street Improvements fund accounts for costs related to the street improvements during the year.

The City reports the following major proprietary funds:

The Water Utility fund accounts for costs associated with the City's water system and ensure that user charges are sufficient to pay for those costs.

The Sewer Utility fund accounts for the costs associated with the City's sewer system and ensure that user charges are sufficient to pay for those costs.

The Storm Sewer Utility fund accounts for the costs associated with the City's storm sewer system, which are financed by the storm sewer surcharge, and ensure that user charges are sufficient to pay for those costs.

Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the Council has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

As a general rule the effect of interfund activity has been eliminated from government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer functions and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

D. Assets, liabilities, deferred inflows of resources, and net position/fund balance

Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Cash balances from all funds are pooled and invested, to the extent available, in certificates of deposit and other authorized investments. Earnings from such investments are allocated on the basis of applicable participation by each of the funds.

The City may invest idle funds as authorized by Minnesota statutes, as follows:

- 1. Direct obligations or obligations guaranteed by the United States or its agencies.
- 2. Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, rated in one of the two highest rating categories by a statistical rating agency, and have a final maturity of thirteen months or less.
- 3. General obligations of a state or local government with taxing powers rated "A" or better; revenue obligations rated "AA" or better.
- 4. General obligations of the Minnesota Housing Finance Agency rated "A" or better.
- 5. Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System.
- 6. Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less.
- 7. Repurchase or reverse repurchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
- 8. Guaranteed investment contracts (GIC's) issued or guaranteed by a United States commercial bank, a domestic branch of a foreign bank, a United States insurance company, or its Canadian subsidiary, whose similar debt obligations were rated in one of the top two rating categories by a nationally recognized rating agency.

Investments for the City are reported at fair value.

The Minnesota Municipal Money Market Fund (the 4M Fund) is a customized cash management and investment program for Minnesota public funds. Sponsored and governed by the League of Minnesota Cities since 1987, the 4M Fund is a unique investment alternative designed to address the daily and long term investment needs of Minnesota cities and other municipal entities. Allowable under Minnesota statutes, the 4M Fund is comprised of top quality, rated investments.

The Minnesota Municipal Money Market Fund and broker money market investment pools operate in accordance with appropriate State laws and regulations. The 4M Fund is an external investment pool not registered with the Securities and Exchange Commission (SEC); however, it follows the same regulatory rules of the SEC under rule 2a7. The reported value of the pool is the same as the fair value of the pool share. Financial statements of the 4M Fund can be obtained by contacting RBC Global Asset Management at 100 South Fifth Street, Suite 2300, Minneapolis, MN 55402-1240.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment policy

The City will consolidate cash and reserve balances from all funds to maximize investment earnings and to increase efficiencies with regard to investment pricing, safekeeping and administration. The City's investment program shall be operated in conformance with federal, state, and other legal requirements, including Minnesota statute 118A.

The investments of the City are subject to the following risks:

- *Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Ratings are provided by various credit rating agencies and where applicable, indicate associated credit risk. Minnesota Statutes and the City's investment policy limit the City's investments.
- Custodial Credit Risk. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City's investment policy does not address custodial credit risk but typically limits its exposure by purchasing insured or registered investments.
- Concentration of Credit Risk. The concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The City places no limit on the amount that may be invested in any one issuer.
- Interest Rate Risk. The interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the City manages its exposure to declines in fair values by limiting the maturity of its investment portfolio.

There are three main objectives of all investment activities that are prioritized as follows:

Safety Safety of principal is the foremost objective of the City. Each investment transaction shall seek to first insure that capital losses are avoided. The objective will be mitigating credit risk and interest rate risk.

Credit Risk is the risk of loss due to failure of the security issuer or backer.

Interest Rate Risk is the risk that the market value of securities in the portfolio will fail due to changes in general interest rates.

- **Liquidity** The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonable anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands.
- Yield The investment portfolio of the City shall be designed to attain a market-average rate of return through budgetary and economic cycles, taking into consideration the City's investment risk constraints, cash flow characteristics of the portfolio and prudent investment principles.

The investment in the Minnesota Municipal Money Market Mutual Fund is not subject to the custodial credit risk classifications as noted in paragraph 9 of GASB Statement No. 40.

Subject to requirements of the above objectives, it is the policy of the City to offer financial institutions and companies within the City the opportunity to bid on investments; however the City will seek the best investment yields.

In accordance with Minnesota statute 118A.03 on the Collateralization of Public Deposits, full collateralization will be required on all demand deposit accounts, including checking accounts and non-negotiable certificates of deposit.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Property taxes

The City Council annually adopts a tax levy and certifies it to the County in December for collection the following year. The County is responsible for collecting all property taxes for the City. These taxes attach an enforceable lien on taxable property within the City on January 1 and are payable by the property owners in two installments. The taxes are collected by the County Treasurer and tax settlements are made to the City during January, June and November each year.

Delinquent taxes receivable include the past six years' uncollected taxes. Delinquent taxes receivable have been offset by a deferred inflow of resources for delinquent taxes not received within 60 days after year end in the governmental fund financial statements.

Accounts receivable

Accounts receivable include amounts billed for services provided before year end. Unbilled utility enterprise fund receivables are also included for services provided in 2013. All trade receivables are shown net of an allowance for uncollectible accounts. All enterprise fund trade receivables are considered collectible because the City annually certifies delinquent accounts to the County for collection.

Special assessments

Special assessments represent the financing for public improvements paid for by benefiting property owners. These assessments are recorded as receivables upon certification to the County. Special assessments are recognized as revenue when they are annually certified to the County or received in cash or within 60 days after year end. All governmental special assessments receivable are offset by a deferred inflow of resources in the fund financial statements.

Interfund receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Restricted assets

Restricted assets consist of monies escrowed for the payment of bond principal and interest. These assets are offset by related liabilities.

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an estimated useful life in excess of one year. The City reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

In the case of initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the City chose to include items dating back to June 30, 1980. The City was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the City constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the City values these capital assets at the estimated fair value of the item at the date of its donation. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. For financial statement purposes only, a capitalization threshold is established for each capital asset category as follows:

| Asset | Threshold |
|-------------------------------------|-----------|
| Land and land improvements | \$ 10,000 |
| Other improvements | 25,000 |
| Buildings and building improvements | 10,000 |
| Machinery and equipment | 1,000 |
| Vehicles | 5,000 |
| Infrastructure | 100,000 |
| Other assets | 5,000 |

Property, plant and equipment are depreciated using the straight line method over the following estimated useful lives:

| Assets | Years |
|------------------------------------|---------|
| T 11 | 15 20 |
| Land improvements | 15 - 20 |
| Buildings and improvements | 7 - 40 |
| System improvements/infrastructure | 15 - 50 |
| Machinery and equipment | 6 - 15 |
| Vehicles | 5 - 6 |
| Other assets | 3 - 15 |

Compensated absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Salaried employees and hourly employees with tenure at the City of 15 years are eligible to be paid 30 percent of their accumulated sick pay at retirement. All vacation pay and a portion of sick pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The General fund is typically used to liquidate governmental compensated absences payable.

Postemployment benefits other than pensions

Under Minnesota statute 471.61, subdivision 2b., public employers must allow retirees and their dependents to continue coverage indefinitely in an employer-sponsored health care plan, under the following conditions: 1) Retirees must be receiving (or eligible to receive) an annuity from a Minnesota public pension plan, 2) Coverage must continue in group plan until age 65, and retirees must pay no more than the group premium, and 3) Retirees may obtain dependent coverage immediately before retirement. All premiums are funded on a pay-as-you-go basis.

In August 2004, the GASB issued Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, effective for the City's fiscal year 2009. Statement No. 45 requires accrual-based measurement, recognition and disclosure of other postemployment benefits (OPEB) expense, such as retiree medical and dental costs, over the employees' years of service, along with the related liability, net of any plan assets. During 2013, the City calculated its OPEB liability using the alternative measurement method and determined that the calculated liability was immaterial. At this point, the City anticipates it will not incur material future explicit or implicit OPEB costs for its employees and, therefore, no liability will be recorded.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the period incurred.

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as another financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred inflows of resources

In addition to liabilities, the statement of financial position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies as needing to be reported in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available

Fund balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, such as prepaid items.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the City Council (the Council), which is the City's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Council modifies or rescinds the commitment by resolution.

Assigned - Amounts constrained for specific purposes that are internally imposed. In governmental funds other than the General fund, assigned fund balance represents all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the General fund, assigned amounts represent intended uses established by the Council itself or by an official to which the governing body delegates the authority. The Council has adopted a fund balance policy which delegates the authority to assign amounts for specific purposes to the Finance Director.

Unassigned - The residual classification for the General fund and also negative residual amounts in other funds.

The City considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of fund balance when expenditures are made.

The City has formally adopted a fund balance policy for the General fund. The City's policy is to maintain a minimum unassigned fund balance of 55 percent of budgeted operating expenditures for cash-flow timing needs.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Net position

Net position represents the difference between assets and liabilities and deferred inflows of resources. Net position is displayed in three components:

- a. Net investment in capital assets Consists of capital assets, net of accumulated depreciation reduced by any outstanding debt attributable to acquire capital assets.
- b. Restricted net position Consists of net position balances restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.
- c. Unrestricted net position All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets".

Comparative data/reclassifications

Comparative total data for the prior year have been presented only for individual enterprise funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year have been reclassified in order to be consistent with the current year's presentation.

Note 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General fund. All annual appropriations lapse at fiscal year-end. The City does not use encumbrance accounting.

In August of each year, all departments of the City submit requests for appropriations to the Administrator/ Clerk/Treasurer so that a budget may be prepared. Before September 15, the proposed budget is presented to the Council for review. The Council holds public hearings and a final budget is prepared and adopted in early December.

The appropriated budget is prepared by fund, function and department. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the Administrator/Clerk/Treasurer. The legal level of budgetary control is the department level. Budgeted amounts are as originally adopted, or as amended by the Council. The City did not make any budget amendments during the year.

Note 3: DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Deposits

Custodial credit risk for deposits and investments is the risk that in the event of a bank failure, the City's deposits and investments may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. In accordance with Minnesota statutes and as authorized by the Council, the City maintains deposits at those depository banks, all of which are members of the Federal Reserve System. For cities that use credit unions, the bank balance is covered by National Credit Union Share Insurance (not FDIC).

Minnesota statutes require that all City deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by insurance or bonds.

Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- General obligation securities of any state or local government with taxing powers which is rated "A" or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service;
- General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc., or Standard & Poor's Corporation; and
- Time deposits that are fully insured by any federal agency.

Minnesota statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the City.

At year end, the City's carrying amount of deposits was \$5,237,612 and the bank balance was \$5,245,308. Of the bank balance, \$5,245,308 was covered by federal depository insurance. The remaining balance was collateralized with securities held by the pledging financial institution's trust department in the City's name.

The Minnesota Municipal Money Market Fund (the 4M Fund) is a customized cash management and investment program for Minnesota public funds. Sponsored and governed by the League of Minnesota Cities since 1987, the 4M Fund is a unique investment alternative designed to address the daily and long term investment needs of Minnesota cities and other municipal entities. Allowable under Minnesota statutes, the 4M Fund is comprised of top quality, rated investments.

Note 3: DETAILED NOTES ON ALL FUNDS - CONTINUED

Investments

As of December 31, 2013, the City had the following investments that are insured or registered, or securities held by the City's agent in the City's name.

| Types of Investments | Credit Quality/ Ratings (1) | Segmented Time Distribution (2) | Fair Value and Carrying Amount |
|------------------------------|-----------------------------|---------------------------------|---|
| Pooled investments | | | |
| Minnesota Municipal Money | | | |
| Market (4M) Fund | Not rated | less than 6 months | \$ 22,801 |
| Broker Money Market Accounts | Not rated | less than 6 months | 2,238,564 |
| Total pooled investments | | | 2,261,365 |
| Non-pooled investments | | | |
| Government Securities | AAA | 6 months to 1 year | 614,761 |
| Government Securities | AAA | 1-3 years | 60,934 |
| Government Securities | Not rated | 1-3 years | 2,324,090 |
| Government Securities | AA+ | more than 3 years | 4,266,613 |
| Municipal Bonds | Not rated | 1-3 years | 199,210 |
| Municipal Bonds | AA- | 1-3 years | 126,619 |
| Municipal Bonds | AA2 | 1-3 years | 357,627 |
| Total non-pooled investments | | | 7,949,854 |
| Total investments | | | \$ 10,211,219 |

- (1) Ratings are provided by various credit rating agencies where applicable to indicate associated credit risk.
- (2) Interest rate risk is disclosed using the segmented time distribution method.
- N/A N/A indicates not applicable or available.

Cash and investments summary

A reconciliation of cash and investments as shown on the statement of net position for the City follows:

| Deposits | \$ 5,237,628 |
|--------------------------------|---------------|
| Investments | 10,211,219 |
| Total | \$ 15,448,847 |
| Cash and temporary investments | \$ 8,182,433 |
| Escrowed investments | 7,266,414 |
| Total | \$ 15,448,847 |

Note 3: DETAILED NOTES ON ALL FUNDS - CONTINUED

Construction commitments

The City has active construction projects as of December 31, 2013. The projects include improvements related in the areas of street and trail construction. At year end, the City's commitments with contractors are as follows:

| Project | Spent-to-Date | Remaining Commitment |
|--|-----------------------|-------------------------|
| CR 66 Trail Improvements 2013 Street Improvements | \$ 145,185 921,332 | \$ 16,956 138,638 |
| Total | \$ 1,066,517 | \$ 155,594 |

C. Interfund transfers

The composition of interfund transfers for the year ended December 31, 2013 is as follows:

| | Transfers in | | | | | | | |
|-----------------------|--------------|--------|----|---------|----|------------|----|-----------|
| | | | | Debt | N | Ionmajor | | |
| Fund | G | eneral | | Service | Go | vernmental | | Total |

| Sewer Utility | | | | _ | | 10,000 | | 10,000 |
| Total transfers out | \$ | 8,638 | \$ | 731,647 | \$ | 490,862 | \$ | 1,231,147 |

For the year ended December 31, 2013 the City made the following transfers:

- The General fund transferred a total of \$214,387 to nonmajor governmental funds for a fire truck purchase (\$95,431), to help with a road reclaim project (\$20,000), to alleviate a cash deficit (\$63,956), and for future equipment purchases (\$35,000).
- \$8,638 was transferred into the General fund from nonmajor governmental funds to transfer excess fund balances for future capital outlay needs.
- Transfer of \$647,879 between Debt Service funds to close fund 324 to fund 331.
- \$83,768 transfer from Capital Project funds to Debt Service funds for trail project costs.
- \$38,977 between nonmajor governmental funds to transfer MSA funds for the Rice Street bridge project.
- \$147,498 of other miscellaneous transfers to close out fund balances in other nonmajor governmental funds.
- \$35,000 from each the Park Improvement and Park Equipment Improvement funds to the Veterans Park fund for future service projects.
- \$10,000 from each of the Water Utility and Sewer Utility funds to the Street Equipment Fee fund for future equipment purchases.

Note 3: DETAILED NOTES ON ALL FUNDS - CONTINUED

D. Long-term debt

General obligation bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. These bonds are reported in the proprietary funds if they are expected to be repaid from proprietary fund revenues. In addition, general obligation bonds have been issued to refund special assessments related bonds.

| Description | Authorized and Issued | Interest Rate | Issue Date | Maturity Date | Balance at Year End |

Note 3: DETAILED NOTES ON ALL FUNDS - CONTINUED

G.O. special assessment (improvement) bonds

The following bonds were issued to finance various improvements and will be repaid primarily from special assessments levied on the properties benefiting from the improvements. Some issues, however, are partly financed by ad valorem tax levies. All special assessment debt is backed by the full faith and credit of the City. Each year the combined assessment and tax levy equals the 105 percent amount required for debt service. The excess of 5 percent is to cover any delinquencies in tax or assessment payments.

Crossover refunding

On April 1, 2012, the City issued General Obligation Improvement Refunding Bonds, Series 2012A for \$2,085,000. The Refunding Bonds were issued with a net interest cost of 1.1230912 percent to refund the maturities of the City's Crossover Refunding Bond, Series 2004A on February 1, 2014. The refunded bonds earned an average coupon rate of 2.0041335 percent. The savings information on the refunding bonds shows a net present value benefit for the City of \$139,516.

On March 7, 2013, the City issued General Obligation Improvement Refunding Bonds, Series 2013B for \$4,320,000. The Refunding Bonds were issued with a net interest cost of 1.5016521 percent to refund the maturities of the City's Crossover Refunding Bond, Series 2007A on February 1, 2017. The refunded bonds earned an average coupon rate of 1.7361689 percent. The savings information on the refunding bonds shows a net present value benefit for the City of \$188,563.

Note 4: DEFINED BENEFIT PENSION PLAN - STATEWIDE

A. Plan description

All full-time and certain part-time employees of the City of Jordan are covered by defined benefit plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund (GERF) and the Public Employees Police and Fire Fund (PEPFF), which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with Minnesota statutes, chapters 353 and 356.

GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan. All police officers, fire-fighters and peace officers who qualify for membership by statute are covered by the PEPFF.

PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota statute, and vest after three years of credited service. The defined retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service.

Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first 10 years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first 10 years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For PEPFF members, the annuity accrual rate is 3.0 percent for each year of service.

For all PEPFF members and GERF members hired prior to July 1, 1989 whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 55 for PEPFF members and 65 for Basic and Coordinated members hired prior to July 1, 1989. Normal retirement age is the age for unreduced Social Security benefits capped at 66 for Coordinated members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

There are different types of annuities available to members upon retirement. A single-life annuity is a lifetime annuity that ceases upon death of the retiree--no survivor annuity is payable. There are also various types of joint and survivor annuity options available which will be payable over joint lives. Members may also leave their contributions in the fund upon termination of public service, in order to qualify for a deferred annuity at retirement age. Refunds of contributions are available at any time to members who leave public service, but before retirement benefits begin.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

PERA issues a publicly available financial report that includes financial statements and required supplementary information for GERF and PEPFF. That report may be obtained on the Internet at www.mnpera.org, by writing to PERA, 60 Empire Drive #200, St. Paul, Minnesota, 55103-2088 or by calling (651) 296-7460 or 1-800-652-9026.

Note 4: DEFINED BENEFIT PENSION PLAN - STATEWIDE - CONTINUED

B. Funding policy

Minnesota statutes chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the State legislature. The City makes annual contributions to the pension plans equal to the amount required by Minnesota statutes. GERF Basic Plan members and Coordinated Plan members were required to contribute 9.10 percent and 6.25 percent, respectively, of their annual covered salary in 2013. PEPFF members were required to contribute 9.60 percent of their annual covered salary in 2013. In 2013, the City was required to contribute the following percentages of annual covered payroll: 11.78 percent for Basic Plan GERF members, 7.25 percent for Coordinated Plan GERF members, and 14.40 percent for PEPFF members. The City's contributions to the GERF for the years ending December 31, 2013, 2012 and 2011 were \$57,867, \$54,917, and \$56,669, respectively. The City's contributions to the PEPFF for the years ending December 31, 2013, 2012 and 2011 were \$82,823, \$79,326, and \$70,709, respectively. The City's contributions were equal to the contractually required contributions for each year as set by Minnesota statute.

C. Defined contribution plan

Elected officials of the City are covered by the Public Employees Defined Contribution Plan (PEDCP), a multiple-employer deferred compensation plan administered by the Public Employees Retirement Association of Minnesota (PERA). The REDCP is a tax qualified plan under section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota statutes, chapter 353D.03, specify the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5 percent of salary which is matched by the elected official's employer. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2 percent of employer contributions and four-tenths of one percent of the assets in each member's account annually.

The City's contributions to the PEDCP for the years ended December 31, 2013, 2012 and 2011 were \$1,140, \$960, and \$960, respectively. The City's contributions were equal to the contractually required contributions for each year as set by Minnesota statute.

Note 5: DEFINED BENEFIT PENSION PLAN - FIRE RELIEF ASSOCIATION

Plan description

All members of the Jordan Fire Department, (the Department) are covered by a defined benefit plan administered by the Jordan Firefighters' Relief Association, (the Association). The plan is a single employer retirement plan and is established and administered in accordance with Minnesota statute, chapter 69.

The Association maintains a separate Special fund to accumulate assets to fund the retirement benefits earned by the Department's membership. Funding for the Association is derived from an insurance premium tax in accordance with the Volunteer Firefighter's Relief Association Financing Guidelines Act of 1971 (chapter 261 as amended by chapter 509 of Minnesota statutes 1980). Funds are also derived from investment income.

The Association issues a publicly available financial report. The report may be obtained by writing to Jordan Firefighters' Relief Association, Jordan, Minnesota 55352.

Note 5: DEFINED BENEFIT PENSION PLAN - FIRE RELIEF ASSOCIATION - CONTINUED

Funding policy

The financial requirements of the Special fund are determined in accordance with section 69.772 of the Minnesota statues, which requires the payment of pension benefits in a lump sum or optionally in annual installments. The benefits are payable after age 50, 20 years of service, and 10 years of Association membership or upon death. The City's annual pension cost for the current year and related information for the plan is as follows:

| Annual pension cost | | | | | \$ 95,499 |

^{*} Information not available at the time of the audit.

Note 6: OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City carries insurance. The City obtains insurance through participation in the League of Minnesota Cities Insurance Trust (LMCIT) which is a risk sharing pool with approximately 800 other governmental units. The City pays an annual premium to LMCIT for its workers compensation and property and casualty insurance. The LMCIT is self-sustaining through member premiums and will reinsure for claims above a prescribed dollar amount for each insurance event. Settled claims have not exceeded the City's coverage in any of the past three fiscal years.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities, if any, include an amount for claims that have been incurred but not reported (IBNRs). The City's management is not aware of any incurred but not reported claims.

B. Contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

C. Legal debt margin

The City's statutory debt limit is three percent of estimated market value within the City of \$359,454,200. The City currently has \$4,410,000 of debt subject to this limit, leaving a debt margin of \$9,567,301 (net of debt service restrictions). Debt financed partially or entirely by special assessments or by operations of enterprise funds is excluded from this computation by Minnesota statute.

D. Joint venture

The City is a member of a joint powers agreement consisting of seven member cities. Other members include the cities of Shakopee, Savage, Prior Lake, Elko, New Market, New Prague, and Belle Plaine. Each City shall appoint one individual to serve on the Scott Joint Prosecution Association Board (the Board) and the cities of New Market and Elko may each appoint a representative to serve on the Board with each of the representatives having one-half vote. Each member city contributes funds to cover their city's proportionate share of the costs of performing prosecution services. Contributions made by member cities for 2013 were as follows:

| Co | ntributed | ъ. | |
|----|------------|--|--|
| | iiiiibutea | Percent | |
| \$ | 61,269 | 7.0 % | |
| | 19,781 | 2.3 | |
| | 51,903 | 5.9 | |
| | 63,719 | 7.3 | |
| | 171,902 | 19.6 | |
| | 164,025 | 18.7 | |
| | 342,667 | 39.2 | |
| \$ | 875 266 | 100.0 % | |
| | \$ | 19,781 51,903 63,719 171,902 164,025 | |

E. Tax increment districts

The City's tax increment districts are subject to review by the State of Minnesota Office of the State Auditor (OSA). Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance which would have a material effect on the financial statements.

Note 7: CHANGE IN ACCOUNTING STANDARD

During fiscal year 2013, the City implemented accounting pronouncement Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34" issued by the Government Accounting Standards Board (GASB). Changes related to these standards are reflected in the financial statements and schedules and related note disclosures. The City did not have any items which required a restatement.

The purpose of this report is to provide a summary of financial information concerning the City of Jordan to interested citizens. The complete financial statements may be examined at 210 East 1st Street. Questions about this report should be directed to Tom Nikunen, Finance Director at 952-492-2535.

OTHER REQUIRED REPORTS

CITY OF JORDAN JORDAN, MINNESOTA

FOR THE YEAR ENDED DECEMBER 31, 2013

THIS PAGE IS LEFT BLANK INTENTIONALLY

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

Honorable Mayor and City Council City of Jordan, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of American, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Jordan, Minnesota (the City) as of and for the year ended December 31, 2013, and the related notes to the financial statements, and have issued our report thereon dated April 16, 2014.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to Minnesota Statute §6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that the City failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City's noncompliance with the above referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and City Council City of Jordan, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Jordan, Minnesota (the City), as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated April 16, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified However, as described in the accompanying Schedule of Findings and Responses, we identified a certain deficiency in internal control that we consider to be a material weakness and another deficiency that we consider to be a significant deficiency.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Responses as item 2013-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings and Responses as item 2013-002 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The City's Responses to Findings

The City's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Mankato, Minnesota April 16, 2014

CITY OF JORDAN, MINNESOTA SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED DECEMBER 31, 2013

Finding Description

2013-001 Material audit adjustments

Condition: During our audit, adjustments were needed to record accounting and audit adjustments, four of which were material.

• A material audit entry was required to adjust tax revenue and delinquent taxes.

• A material audit entry was required to adjust assessment revenue and delinquent assessments.

 A material audit entry was required to adjust State aid and other intergovernmental revenue coding.

 A material audit entry was required to record a contribution and capital asset addition related to the library building.

Criteria: The financial statements are the responsibility of the City's management.

Cause: City staff has not prepared a year-end trial balance reflecting all necessary accounting entries.

Effect: This indicates that it would be likely that a misstatement may occur and not be detected by the City's

system of internal control. The audit firm cannot serve as a compensating control over this

deficiency.

Recommendation: We recommend that management review each journal entry, obtain an understanding of why the

entry was necessary and modify current procedures to ensure that future corrections are not needed.

Management response:

Management will review and gain an understanding of the audit adjustments in order to reduce the number of entries necessary for future audits.

Updated progress since prior year:

The number of journal entries in 2013 increased from 35 to 41.

CITY OF JORDAN, MINNESOTA SCHEDULE OF FINDINGS AND RESPONSES - CONTINUED FOR THE YEAR ENDED DECEMBER 31, 2013

Finding Description

2013-002 Preparation of financial statements

Condition: We were requested to draft the audited financial statements and related footnote disclosures as part

of our regular audit services. Recent auditing standards require auditors to communicate this situation to the Council as an internal control deficiency. Ultimately, it is management's

responsibility to provide for the preparation of your statements and footnotes, and the responsibility of the auditor to determine the fairness of presentation of those statements. However, based on recent auditing standards, it is our responsibility to inform you that this deficiency could result in a material misstatement to the financial statements that could have been prevented or detected by your

management. Essentially, the auditors cannot be part of your internal control process.

Criteria: Internal controls should be in place to ensure adequate internal control over safeguarding of assets

and the reliability of financial records and reporting.

Cause: From a practical standpoint, we prepare the statements and determine the fairness of the presentation

at the same time in connection with out audit. This is not unusual for us to do with organizations of

your size.

Effect: The effectiveness of the internal control system relies on enforcement by management. The effect of

deficiencies in internal controls can result in undetected errors. As in prior years, we have instructed management to review a draft of the auditor prepared financials in detail for accuracy; we have answered any questions that management might have, and have encouraged research of any accounting guidance in connection with the adequacy and appropriateness of classification of disclosures in your statements. We are satisfied that the appropriate steps have been taken to

provide you with the completed financial statements.

Recommendation: Under these circumstances, the most effective controls lie in management's knowledge of the City's

financial operations. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost and other considerations. Regarding the specific situation listed above, we would offer the following specific recommendation: 1) Utilize a disclosure checklist to ensure all required disclosures are present and agree to work papers, and 2) Agree your financial software information to the amount

reported in the financial statements.

Management response:

The City is aware of the control deficiency, which is an unavoidable consequence of the financial restrictions of small cities. Each year the City has a presentation from our auditor to the Council after the audit is performed. Management recognizes that it is not economically feasible to fully correct this finding; it is aware of the deficiency and is relying on oversight by management and the Council to monitor the deficiency.
