2040 Comprehensive Plan

The City intends to support and strengthen downtown as an important retail center through implementation of the following development policies:

- Promote downtown as the center of the community as a focal point for local government, community social activities and commerce, promoting the central business district as a place for community events, which are family-oriented and benefit retail and service businesses.
- Promote the expansion of the downtown on sites identified for potential redevelopment.
- Maintain the historic character of the downtown and continue to encourage private sector rehabilitation and renovation of existing buildings in the downtown.
- Encourage the use of upper levels of commercial buildings for office and residential uses.
- Monitor traffic and provide safe and convenient access to businesses for vehicular and pedestrian traffic.
- Promote the development and maintenance of sidewalks and trails which lead to and through the central business district to create a walkable community and downtown area.
- Work with the business community to develop design standards for new and remodeled buildings to ensure the building mass, scale, and facades are compatible with existing buildings.
- Explore opportunities to offer additional off-street parking for business patrons as well as employee parking.
