## Election Signs

Election season is upon us! Candidates and people concerned about issues will soon be putting up signs supporting their positions. Both Minnesota Statutes and the Jordan City Code regulate these signs. Here is a summary of the regulations. If you have questions, please call City Hall at 492-2535.

Generally, cities can limit the amount of signage located on a parcel of property. However, the rules change during an election year. State statute provides that beginning **June, 28, 2024 and extending through November 15, 2024**, noncommercial signs of any size and number may be posted on a parcel.

**Safety issues can be created by the location of a sign.** The City Code requires signs placed on corner lots to be set back 25 feet from the corner. Signs cannot be placed on or over a public right-of-way or any publicly owned property, including boulevard trees and utility poles. Signs may be attached to a permanent, not temporary fence, and cannot interfere with traffic visibility.

**The City Code prohibits various types of signs that are deemed too distracting or increase light pollution.** Prohibited signs include: flashing signs and signs with twinkling illumination; signs emitting a beam of light, including search lights; rooftop signs, rotating signs or billboards; mobile signs.

With warmer temperatures upon us, more and more residents are out and about walking and biking on the trails and in the parks. It is a violation of City Code to leave pet droppings on public or private property.

Thank you to those of you who always carry waste bags with you when you walk your pet along any sidewalk or trail or within city parks. We need your help keeping our community clean.

## Election Signs

Election season is upon us! Candidates and people concerned about issues will soon be putting up signs supporting their positions. Both Minnesota Statutes and the Jordan City Code regulate these signs. Here is a summary of the regulations. If you have questions, please call City Hall at 492-2535.

Generally, cities can limit the amount of signage located on a parcel of property. However, the rules change during an election year. State statute provides that beginning **June, 28, 2024 and extending through November 15, 2024**, noncommercial signs of any size and number may be posted on a parcel.

**Safety issues can be created by the location of a sign.** The City Code requires signs placed on corner lots to be set back 25 feet from the corner. Signs cannot be placed on or over a public right-of-way or any publicly owned property, including boulevard trees and utility poles. Signs may be attached to a permanent, not temporary fence, and cannot interfere with traffic visibility.

**The City Code prohibits various types of signs that are deemed too distracting or increase light pollution.** Prohibited signs include: flashing signs and signs with twinkling illumination; signs emitting a beam of light, including search lights; rooftop signs, rotating signs or billboards; mobile signs.
